

WORKSHOP

Measuring the effects of forest policies and interventions

Monday 26 March 2018

INRA-SupAgro Campus, Montpellier, France

Morning - Bat. 26, Room Oceanie

9:00	Welcome coffee	
9:30		<p>Sven Wunder CIFOR</p> <p><i>Impacts of incentives for tropical forest conservation: an overview</i></p>
10:00		<p>Amy Duchelle CIFOR</p> <p><i>Evaluating the impacts of different types of REDD+ interventions on forests and people</i></p>
10:30		<p>Gwennolé Le Velly Supagro – CEEM</p> <p><i>Impact of sustainable forest management on deforestation in the Congo Basin</i></p>
11:00	Coffee break	
11:15		<p>Stibniati Atmadja CIFOR</p> <p><i>Do REDD+ interventions affect household forest clearing outcomes? Early findings</i></p>
11:45		<p>Elias Cisneros University of Bonn</p> <p><i>Conservation incentives for protected areas management: A spatial matching analysis of the Bolsa Floresta Program</i></p>
12:15	Lunch	

Afternoon - Bat. 26, Room Oceanie

14:15		Alexandre Sauquet INRA- CEEM <i>Ecological fiscal incentives and spatial strategic interactions</i>
14:45		Erin Sills College of Natural Resources, NC State University <i>Enabling local governments to respond to a federal environmental mandate: evaluation of the Green Municipality Program in the Brazilian Amazon</i>
15:15		Colas Chervier CIRAD <i>When the implementation of payments for biodiversity conservation leads to motivation crowding-out: a case study from the Cardamoms Forests, Cambodia</i>
15:45	Coffee break	
16:00		Arild Angelsen Norwegian University of Life Sciences <i>Field experiments on PES design in Ethiopia</i>
16:30		Anais Lamour INRA – CEEM <i>Achieving Mitigation and Adaptation to Climate Change through Coffee Agroforestry: A Choice Experiment Study in Costa Rica</i>
17:00		Javier Montoya ANU Canberra <i>The impacts of rewards for hydrological ecosystem services on land cover and household wellbeing in Moyobamba, Peru</i>
